Making the future work for you

**UK ADVANCED POWER GENERATION FORUM
DTI, LONDON
23 SEPTEMBER 2003**

SUMMARY

Nick Otter

RESUME

- Summary of UK position coming from the Energy White Paper
- Update on the activities in US and those planned in Europe
- Lively break-out sessions on APGTF recommendations to DTI for Carbon Management Strategy for fossil fuels

MAJOR OUTCOMES

● Key Points

- essential for UK to plan and develop its strategy towards clean use of fossil fuels and so form the basis of DTI programmes in this area
- Carbon Management will be a critical aspect as Fossil PG should be a key element in the mix nationally and world-wide
- UK developments need to be done against an international backdrop and should involve collaborative activities
- opportunity to get a critical mass European initiative underway with UK in one of lead positions
- successful deployment of technology essential in an ever increasingly competitive and risk adverse marketplace
- need for consistent policy to give industry confidence to invest

FOLLOW UP ACTIONS

- APGTF Recommendations

- draft document will take into account views expressed today
- to be submitted and discussed with DTI in October-November/03
- APGTF document will be produced in early 2004
- available in hard copy and on APGTF website
